

Prathamesh Patil

Senior Fullstack Developer

Over 4.5 years of experience building scalable web applications using React, Node.js and cloud architecture.

RELEVANT EXPERIENCE

Software Development Engineer

October 2023 - Present

HowNow, Mumbai

- Developed and managed a Claude-powered AI workflow to standardize planning, code generation and testing protocols across the development team.
- Ensured WCAG 2.0 AA-level accessibility compliance, improving platform inclusivity and usability.
- Implemented AI-driven localization pipeline supporting 30+ languages, reducing translation time from days to 10 minutes.
- Spearheaded migration to React Aria from Bootstrap/Material UI, delivering scalable and accessible UI components in collaboration with cross-functional teams.
- Developed a robust input sanitization layer to mitigate XSS and script injection, ensuring secure user experience.

Fullstack developer

May 2022 – August 2023

uFaber, Mumbai

- Integrated Strapi CMS to streamline content management, enabling webpage creation within 1 to 2 minutes.
- Engineered a 24/7 website error detection webhook to monitor application health, sending real-time text and email alerts within 5 minutes of downtime.
- Developed robust backend APIs using FastAPI and SQLAlchemy ORM, along with custom webhooks to automate workflows and integrate third-party services.
- Optimized React page performance by 30-40% across all devices, achieving 80%+ performance scores on Lighthouse.
- Applied SEO best practices to improve search engine visibility and ensure higher rankings for adaptive pages.

Application development associate

September 2021 – April 2022

Accenture, Mumbai

- Trained extensively in web technologies, including HTML, CSS, JavaScript, React and SQL.
- Built clean and interactive UIs using JavaScript and the EJS templating engine in NodeJS.
